

Resume Ingestion batch processing

Using Vibe coding updated existing resumes-ai-rag repo to perform batch wise processing of resume to mongoDb.

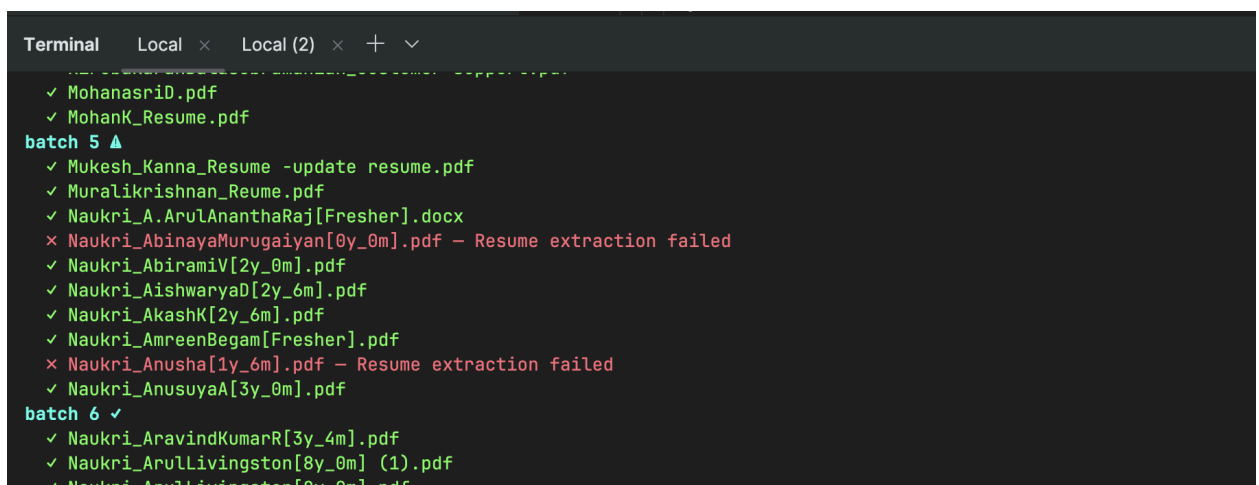

1. Created and endpoint <http://localhost:3000/v1/resume/batch-inject>

2. When triggered, Starts uploading in batch of 10

3. For any resume failed during ingestion there is an indicator added to differentiate the failed resume

4. Post upload the summary is provided on How many resumes uploaded successfully, how many failed and total resumes tried to upload

```
✓ VigneshK_Java.pdf
batch 20 ▲
✓ VigneshwaranC_Java.pdf
× Vijay.pdf – Resume extraction failed
✓ Vijitha J _ Resume.pdf
✓ VIKRAMAN VIJAYAKUMAR Resume.docx
✓ Vishnupriya Pinaca.pdf
✓ White Minimalist Resume (1).pdf
✓ YAMINI S Updated Resume (2).pdf
✓ Yugesh - SEO.pdf
summary ✓ uploaded to Db: 185, failed: 13, total: 198
```

5. Verified the count in MongoDB
